

EMPOWER ANTI-CORRUPTION, ANTI-MONEY LAUNDERING & KNOW-YOUR-CUSTOMER POLICY

PART I

THE POLICY FRAMEWORK

1. SCOPE OF POLICY

Empower New Energy AS (**Empower**) is committed to conducting its business in accordance with all applicable laws and regulations, and in a way that enhances its reputation.

This Anti-Corruption, Anti-Money Laundering and Know-Your-Customer Policy (the **Policy**) is applicable to Empower, its subsidiaries, and to all its activities, and the requirements of this Policy must be implemented in the daily operations. This Policy must be adhered to and applies to all Empower Personnel, which is defined as all permanent employees, its Board of Directors, members of its Investment Committee and all contract/temporary workers (**Empower Personnel**) as well as all project partners, which includes all business partners, project beneficiaries, project developers, contractors, advisors, counsel and all other stakeholders (**Project Partners**) and all other suppliers of goods and services (**Suppliers**).

Integrity is essential to everything that Empower does. Empower seeks to ensure that all Empower Personnel, all Project Partners and all Suppliers adhere to all applicable laws and regulations and maintain the highest ethical standards in their conduct.

1. PURPOSE OF THIS POLICY

This Policy plays an important role in identifying and mitigating the risk of Empower becoming (indirectly) involved in money laundering, terrorist financing, sanctions violations, tax avoidance and tax evasion (jointly referred to as tax integrity risks), corruption and bribery, fraud and financing/receiving financing from entities with a questionable reputation.

| Risk Type | Description |
|-----------------------|---|
| Money Laundering Risk | <p>Money laundering is the introduction of illegally gained assets into the legal financial system with the aim of concealing their true origin. The source of funds is obscured through a succession of transfers and, ultimately, investments in business in order to make them appear as legitimate income.</p> <p>Key risks for Empower include but are not limited to conduit payments that are not fully in line with the funding agreements or requests by</p> |

| | |
|---------------------------------|--|
| | shareholders or other third parties to make payments on their behalf to other third parties. |
| Terrorism Financing Risk | Terrorism financing is the risk that the proceeds of Empower products would be used for terrorism financing. Terrorism financing means financial support, in any form (e.g. provide or collect, direct or indirect) of terrorism or those who encourage, plan or engage in it. The common trait between money laundering and terrorist financing is concealment. |
| Sanctions Risk | Sanctions risk is the risk that Empower would facilitate flow of funds between a sanctioned entity or that would violate country sanctions. |
| Reputational Risk | Reputational risk is the risk that Empower would finance Project Partners with a bad reputation (e.g. due to fraud or corruption or other non-ethical behaviour). |
| Tax Integrity Risk | Tax avoidance and tax evasion are hereinafter jointly referred to as tax integrity risks. Tax integrity risks specifically occur in cross-border transactions and among its Project Partners with a complex international company structure. Empower has a very low appetite for tax integrity risks. Empower should at all times maintain a transfer pricing policy and ensure that Project Partners and UBOs are not incorporated in the jurisdictions listed in Annexure 3 (as such list may be updated from time to time). |

2. BRIBERY AND CORRUPTION

Bribery and corruption are substantial threats to good governance, sustainable development, democratic process and fair business practices.

Empower is committed to combating and preventing bribery and corruption. Empower maintains the following definition of Bribery & Corruption:

- the promising, offering, giving, making, authorising, insisting on, receiving, accepting or soliciting, directly or indirectly, of any illegal or undue payment or advantage of any nature, to or by any person, with the intention to, or the knowledge that such payment or advantage may, directly or indirectly influence, whether as inducement or reward, the actions or decisions of any person, including causing any person to refrain from any action or decision; or
- any action or omission which is prohibited in any applicable jurisdiction by law or regulation relating to bribery or corruption.

An Empower KYC Process is performed on all Project Partners and includes a risk-based due diligence approach which includes consideration of the Project Partners' reputation in respect of money laundering, fraud, bribery and corruption.

Refer to Annex 2 for further definitions on Bribery and Corruption.

3. SANCTIONS

What are Sanctions?

International sanctions are political instruments which can be implemented to protect international security, to try to succeed in getting governments to implement (more) democracy or to stop violating human rights. International sanctions can be imposed against countries, individuals, legal entities, organisations or sector and industries.

Empower considers the international sanctions imposed by the United Nations, the European Union, the Netherlands, the United Kingdom as issued by the UK HM Treasury and the United States (US) as

issued by the US Office of Foreign Assets Control (**OFAC**) as the applicable sanctions for the purposes of this Policy.

Who is screened against a Sanctions List?

Empower screens its primary Project Partners and – where relevant, its Suppliers - , including their ultimate beneficial owner (UBOs), pseudo UBOs and/or Authorised Representatives, against relevant sanction lists in order to limit any legal enforcement or reputational risk for Empower. If a UBO of a Project Partner is sanctioned, the Project Partner shall be considered sanctioned. UBOs and Authorised Representatives are defined in Section 3 below.

Actions to be Taken in case of a “Confirmed Hit” on a Sanctions List

In case of a “confirmed hit” on a sanctions list, Empower shall promptly report this information to the Board, who shall report this information to its Shareholders.

Prior to having entered into a contractual relationship, where a prospective Project Partner (or, where relevant a supplier) or, for the avoidance of doubt, any Authorised Representative or UBO is sanctioned, Empower will not contract with the prospective Project Partner. Post contracting with the Project Partner, there are several measures that Empower can take if a Project Partner becomes sanctioned such as to stop all payments/receipts between Empower and the Project Partner or to seek to exit the relationship altogether as soon as practicable. Such an incident should be raised to the Board of Empower as soon as being recorded. Please note, the interpretation of Sanctions shall also extend to Suppliers.

For further information on the Regulatory Environment, see Annex 2.

4. RISK ASSESSMENT

The Empower KYC Process is designed to provide a risk-based assessment which involves establishing and verifying the identity of (potential) Project Partners, their ultimate beneficial owners and their legal representatives (including evidence of such), documenting and examining the sources of funds and (or) wealth, defining the purpose and nature of the (potential) relationship, documenting the transaction profile, analysing the tax integrity of the Project Partners.

The risk assessment considers a number of factors including:

- Countries - number of transactions to and from high-risk countries, number of customers operating in high-risk countries, and countries where customers are active.
- Project Partners analysis - maturity of customer base, type of goods traded by customers, complexity of customer structures, number of PEPs, a list of assets and breakdown of customers across the different risk categories
- Products and transactions - map out the product groups and types of products and record whether products carry low, medium or high-risk. The number of Project Partners involved in high-risk products and the number of cash transactions are also identified.
- Empower Personnel involved in procurement
- For delivery channels, the number and percentages of customers served via direct channels, via account managers, and doing primarily online business

5. Roles in the KYC Process

The requirements of this Policy must be implemented in the daily operations of Empower. This Policy must be adhered to and applies to all Empower Personnel.

Empower Personnel and Third-Party due diligence partners must exercise prudence and vigilance when assessing all potential new Project Partners or Suppliers, or when performing the periodic or event driven Empower KYC Process on existing Project Partners or Suppliers.

The Empower Board of Directors is ultimately responsible for the entire KYC process within Empower. This includes, but is not limited to, the design, effectiveness, adherence to and review of the Empower KYC Process. Success with regard to adequate KYC is dependent upon the cooperation of all relevant Empower Personnel and Third-Party due diligence partners. Everyone must exercise prudence and vigilance when assessing potential new Project Partners or Suppliers.

6. NON-COMPLIANCE WITH THIS POLICY

Empower holds Empower Personnel and its Third-Party due diligence partners accountable for their actions. It is the responsibility of each and every Empower Personnel and Third-Party member to be informed about the requirements of this Policy and to ask questions to their manager if clarification is required. Failure to comply with the Policy is treated seriously and may result in disciplinary action, up to and including dismissal. A breach of this Policy must be reported per the incident reporting process outlined in the Code of Conduct Policy. This Policy is of vital importance to control the risks of bribery and corruption acts, money laundering, terrorism financing, sanctions violations, tax evasion, fraud or dealing with non-reputable Project Partners and Suppliers.

Any act by Empower Personnel, Project Partners or Suppliers in contravention of this Policy shall be considered a breach of trust and could lead to the following consequences for Empower Personnel:

- Personal criminal liability followed by fines or imprisonment;
- Disciplinary action initiated by the management, including suspension, dismissal or other measures; and
- Personal reputational damage.

In case of a criminal offence, Empower reserves the right to report to the appropriate authorities.

PART II

EMPOWER'S KNOW YOUR CUSTOMER PROCESS

1. OVERVIEW

The Empower KYC Process is designed to identify and mitigate the risk that Empower will engage or has engaged with a Project Partner, or any contracting partner, who is involved in money laundering, terrorism financing (or any other form of illegal financing), is included in a relevant sanction list or other integrity issues occur that could directly or indirectly harm the reputation of Empower.

Empower shall only enter into a business relationship if it has successfully conducted an Empower KYC Process, the process has led to the envisaged result and Empower is in possession of all identification and verification details and all other information considered relevant to complete Empower KYC Process.

These are the following steps in Empower KYC Process:

1. Contracting and Project Investment Phase
2. Monitoring and Review Stage:
3. KYC Periodic Review
4. KYC Event Driven Review

At each stage, the KYC information held on the Empower Gateway must be regularly updated, which shall include details of the UBO per legal entity and any results of the Empower KYC Progress. See Annex 3 for detailed definitions of relevant contracting parties.

Furthermore, during the Contracting and Project Investment Phase (as early as possible to identify potential Red Flags), but prior to any investment being made, Empower shall complete the Project KYC Screening Schedule (substantially in the form as appended at Annex 5), which Project KYC Screening Schedule shall be satisfactorily completed in accordance with the Empower KYC Process and subject always to this Empower Integrity and KYC Policy.

2. Type of Due Diligence

The Empower KYC Process ensures the appropriate risk-based identification and verification of the ownership and control structure shall be completed and that Empower obtains full information on the relevant parties, gaining insight in the natural persons or entities that own or control the Project Partner, and/or to gain insight into who ultimately has the benefit of the revenues of that Project Partner.

2.1.Simplified Due Diligence

The Simplified Due Diligence requires screening against World-Check and internet searches and receipt of a commercial register and register of Directors extract or similar document only.

Simplified Due Diligence can be conducted on Utility Clients, Shareholders and EPC and O&M providers that are listed on international stock exchanges or where its parent is listed on an international regulated stock exchange.

2.2.Standard Due Diligence

Requires completion of all stages in the Empower KYC process.

2.3.Enhanced Due Diligence:

When red flags or findings are identified, the Project Director/Chief Legal Officer shall be consulted to decide whether Enhanced Due Diligence should be completed or whether this is an Unacceptable Risk and accordingly to end the potential relationship. Regardless of the decision the Investment Committee of Empower shall be initially consulted on all red flags, with a further consultation with the Board where necessary.

1. STEP 1: STARTING THE KYC PROCESS

A Project Partner or Supplier should be requested to provide electronic copies of:

- If available, an organogram with all subsidiaries and shareholders (indicating shareholding structure) all the way to the ultimate beneficiary or a list of shareholders and ultimate beneficiary
- Register/List of Directors
- List of Authorised Signatories (if applicable)
- Incorporation documents (certificate of incorporation, Memorandum and Articles of Association (or equivalent) and copy of any amendments thereafter)
- Copy of current Business Licence (where applicable)
- Annual Report/Audited Financial Statements for last three years
- Tax Clearance Certificate for last three years
- Latest Management Accounts for the year
- Letter of Reference/Confirmation of Banking-Relationship from current bank

Enhanced Document Request (on a case-by-case basis) where further verification recommended:

- Management structure and details of Management personnel with relevant qualification
- Copies of identity documents of Directors and UBOs, if required
- Proof of address
- Confirmation of sources of wealth and funds.

2. STEP 2: IDENTIFY RED FLAGS

Once Empower has identified the Project Partner, including their ownership and governance structure. The primary objective of the KYC Process is to identify Red Flags that can potentially lead to a party being non-desirable to contract with.

Empower uses information provided by the Project Partner/Supplier and where collected information is not considered suitable or sufficient given the level of risk, Empower will conduct additional due diligence and source additional information.

The identified data of the Project Partner (and the UBOs) is recorded in the KYC Tracker. The data is checked against PEP lists, mandatory sanction lists and further performs Google screening searches which shall include adverse media and offshore leak searches.

The results of the screening including the World-Check report and whether a “true hit”¹, a “false positive”² or “no hit”³ has been identified and any other relevant data that might impact the reputation of Empower shall be recorded in the Customers’ KYC folder to evidence that the relevant entities and persons have been screened according to this Policy.

3. STEP 3: FINAL RISK RATING

Following the completion of the above-referenced due diligence exercises as applicable and relevant to the counterparty, Empower then categorises Project Partners and Suppliers into four rating categories indicated below depending on the outcome of the due diligence process. The assignment of a counterparty to a risk rating category then dictates the level of engagement with that counterparty by Empower and then determines the level of ongoing monitoring requirements.

| Risk Category | Rating | Type of Due Diligence | Type of Monitoring |
|--------------------------|--------|---|--|
| Unacceptable Risk | | Empower will not accept a Project Partner qualified with this type of risk. | N/a as Project Partner not accepted |
| High Risk | | Enhanced due diligence required. | Monitoring to be completed at least annually. |
| Medium Risk | | Standard or Enhanced due diligence based on risk rating at initial call. | Monitoring to be completed annually. |
| Low Risk | | Simplified diligence to be completed. | Ad hoc annual monitoring but at least one review to be completed once every three years. |

4. STEP 4A: PERIODIC REVIEW

Throughout the relationship life cycle, a Periodic Review serves to determine whether the Project Partner or Supplier still meets the acceptable risk. It is mandatory for Empower to review Project Partner relationships subject to the Risk Rating Category, being either annually or at least every 3 years, or, as the need arises, in the event that there is a material change in the corporate, financial or reputational status of the Project Partner or Supplier.

The Project Partner and the transactions carried out by them are periodically monitored after acceptance, the intervals of such monitoring shall be guided by the inherent risk associated with a Project Partner or Supplier.

5. STEP 4B: EVENT-DRIVEN REVIEW

Over the course of a Project Partner or Supplier relationship, various events or changes of Project Partner data or activity may occur and might impact the risks associated with the existing Project Partners or Supplier. These include, but are not limited to changes in ownership, negative press coverage

¹ In case of true hit, the outcome of the search matches exactly with the searched item.

² A false positive is an outcome of a screening search that is similar to the searched item but is not exactly the same.

³ ‘No hit’ refers to a search without any outcome.

or rumours in the market. These reviews must be undertaken at least once every three years as per the KYC Gateway Tracker, or as soon as Empower becomes aware of significant changes in the Project Partner.

PART III

CONSIDERATIONS DURING ALL STEPS OF EMPOWER KYC PROCESS

1. IMMEDIATE REPORTING OF SUSPICIONS OF CORRUPT PRACTICES

Risk based approach to *Know Your Customer*

Empower shall conduct KYC checks on all its Project Partners in accordance with this Policy. The KYC process must be completed prior to entering into the project agreements with the Project Partners. Empower may also rely on shareholder performed KYC check. KYC checks will be refreshed with any change in control of the client or as required per the periodic review.

Empower should ensure that it immediately reports any suspicion of corrupt practices within its business operations to Empower's Board of Directors as soon as becoming aware, or in accordance with the whistleblowing process as contained in the Empower Code of Conduct and its Whistleblowing Policy.

2. TAX INTEGRITY OF PROJECT PARTNERS

For Project Partners and Suppliers, an assessment on tax integrity risk is mandatory. This includes the Project Partner's entity, the UBO(s) and any intermediary company between the Project Partner's entity and the UBO (if applicable). UBO(s) by control and/or pseudo UBO(s) are out of scope of this assessment.

The assessment includes the following:

- Corporate structure, Project Partner entity, any intermediate company and the UBO(s).
- Countries where the Project Partner entity and intermediary companies are located and the country where the UBO(s) resides. The countries are tested against the EU non-cooperative tax jurisdiction list.
- Adverse news on the Project Partner and UBO(s).
- OECD Base Erosion and Profit Shifting (BEPS). EU Directive reporting cross border tax arrangements (DAC6) and/or EU Directive anti-tax avoidance (ATAD).

3. SOURCE OF FUNDS AND SOURCE OF WEALTH

The principle when entering into a relationship with a Project Partner or Supplier is that, if necessary, Empower knows the source of the funds and/or wealth that will be used in the business relationship or transaction.

Source of Funds (**SoF**) refers to the activity that generates the funds for a particular business relationship or an occasional transaction.

Empower should be comfortable the SoF is not from any illicit source that can contribute to money laundering, corruption or terrorist financing. However, it is important to note that it is not in the usual course of business of Empower to deal with cash receipts from its Project Partners or Suppliers, so the SoF check is only required on a case-by-case basis.

4. POLITICALLY EXPOSED PERSON (PEP)

In case a PEP can influence a Project Partner or Supplier, this could mean a higher money laundering risk for Empower. PEPs are more vulnerable to fraud, corruption or embezzlement.

PEP means a natural person who is or who has been entrusted with prominent public functions and includes the following:

- Heads of State, heads of government, ministers and deputy or assistant ministers;
- Members of parliament or of similar legislative bodies;
- Members of the governing bodies of political parties;
- Members of supreme courts, or constitutional courts or of other high-level judicial bodies, the decisions of which are not subject to further appeal, except in exceptional circumstances;
- Members of courts of auditors or of the boards of central banks;
- Ambassadors, chargés d'affaires and high-ranking officers in the armed forces;
- Directors, deputy directors and members of the board or persons holding an equivalent position at an international organisation.

No public function referred to in above bullet points shall be understood as covering middle-ranking or more junior officers.

Family members and close associates of the persons mentioned above are also considered as PEPs:

- Family members: Family members who are directly related to a PEP either directly or through marriage or similar (civil) forms of partnership, e.g., their spouses, children or parents.
- Close Associates: this is an individual who is closely connected to a PEP, either socially or professionally (this can include, but is not limited to boyfriend/girlfriend or close business associate/prominent members of the same political party or organization/joint membership of a company board.) Empower's research obligation stops at this being publicly available information (e.g., Google, World-Check), further in-depth research is not required. Depending on the nature of close association with a PEP, Empower may require an Enhanced Due Diligence to satisfy itself as to the character and reputation of such person, as well as evaluate any potential risks associated with transacting with the person/entity.

ANNEX 2

KYC, SANCTIONS AND BRIBERY AND CORRUPTION RISKS DEFINITIONS

Empower considers any of the following acts, applicable to both public officials and private entities, as “corruption”:

| | |
|--|--|
| Bribery | A bribe occurs when a person requests, receives, offers, pays, seeks or accepts an offer or an improper advantage or reward in connection with their position, office or assignment. |
| Extortion | Extortion is a direct or indirect act of utilising a power position or knowledge to demand unmerited cooperation or compensation as a result of coercive threats. |
| Facilitation payments | <p>A facilitation payment is a direct or indirect unofficial payment made to secure or expedite a performance of a routine or necessary action to which the payer of the facilitation payment has legal or other entitlement. This practice is legally distinguished from bribery; however, the distinction is often blurred.</p> <p>Facilitating payments are not allowed for Empower Empower Personnel</p> |
| Nepotism and cronyism | Nepotism and cronyism are a form of favouritism based on familial or acquaintance relationships where someone in an official position exploits their power and authority to provide a job or favour to a family member or friend, even though the recipient may not be the most qualified or deserving thereof. |
| Fraud | Fraud includes any intentional or deliberate act to deprive the legal entity of property or money by deception or other unfair means. |
| Money laundering | Money laundering risk is the risk that Project Partners of Empower would misuse Empower’s products to launder money. Money laundering is the introduction of illegally gained assets into the legal financial system with the aim of concealing their true origin. The source of funds is obscured through a succession of transfers and, ultimately, investments in business in order to make them appear as legitimate income. |
| Financing of terrorism | Funds that are used for terrorist activities. It may involve funds raised from legitimate sources, such as profits from businesses, as well as from criminal activities. |
| Illegal Political contributions | Illegal political contributions to a politician, political campaign or political party, including contributions made in cash or in services, for example gifts of property or services, advertising or promotional activities or endorsing a political party, with the intent to solicit future favourable treatment. |
| Sanctions Risk | Sanctions risk is the risk that Empower enters into a business relationship with a sanctioned entity or that it violates country sanctions. |
| Tax Integrity Risk | Tax avoidance and tax evasion are hereinafter jointly referred to as tax integrity risks. Tax integrity risks specifically occur in cross-border transactions and among Project Partners with a complex international company structure. FATF compliance is required. |

| | |
|--------------------------|---|
| Reputational risk | Reputational risk is the risk that Empower enters into a business relationship with a Project Partner or supplier with a bad reputation (e.g., due to fraud, corruption). |
|--------------------------|---|

ANNEX 3

BACKGROUND TO THE POLICY: REGULATORY FRAMEWORK AND DEFINITIONS OF PROJECT PARTNER, UBOs, PSUEDO UBOs, AUTHORISED REPRESENTATIVES

REGULATORY FRAMEWORK

As a Company domiciled in Norway, Empower must comply with the requirements of a number of laws and formal guidelines which include:

- a) The OECD Convention on Combating Bribery of Foreign Public Officials in International Business Transactions, 1997 (the **OECD Convention**) and legislation adopted to implement or enact the same, and the OECD Convention's commentaries;
- b) The UN Convention Against Corruption, 2003 and legislation adopted to implement or enact the same;
- c) The FCPA;
- d) The Bribery Act;
- e) Sections 387, 388 and 389 of the Norwegian Penal Code of 2005;
- f) The United Kingdom Money Laundering Regulations 2007, the Proceeds of Crime Act 2002 and the Terrorism Act 2000; and
- g) The Belgian anti-money laundering law of 18 September 2017 (*Loi relative à la prévention du blanchiment de capitaux et du financement du terrorisme et à la limitation de l'utilisation des espèces / Wet tot voorkoming van het witwassen van geld en de financiering van terrorisme en tot beperking van het gebruik van contanten*);
- h) Any other applicable law which:
 - i. prohibits or penalises the offering, promising, authorising or giving of a bribe, including the improper conferring of any gift, payment or other benefit on any person or any director, officer, employee, agent or adviser of such person; or
 - ii. is broadly equivalent to the FCPA and / or the above Norwegian, United Kingdom and Belgian laws or was intended to enact the provisions of the OECD Convention and the UN Convention Against Corruption, 2003 or which has as its objective the prevention of corruption;

DEFINITION OF A PROJECT PARTNER

Empower considers a Project Partner to be a natural person or legal entity with whom Empower has a business relationship which comprises of the provision of goods or services from or for Empower. Empower considers a Supplier to be a natural person or legal entity that delivers goods or services to Empower.

DEFINITION OF UBO AND PSEUDO UBOS

A UBO is an ultimate beneficial owner of the legal entity and will always be a natural person. A legal entity may have one or more UBOs (or pseudo-UBOs). Who a UBO is differs per type of legal entity.

Where a Project Partner includes multiple entities, who are relevant to the transaction, for each legal party (referred to as a Sub-Project Partner) Empower will identify the UBOs of that Sub-Project Partner until the ultimate UBO of the Project Partner is identified, i.e., continue up the chain of ownership of the shares, voting rights or other ownership interests, including any actual control, and stopping only when the ultimate owner is identified as a natural person.

Actual control over a Project Partner is when a natural person:

- can appoint or dismiss the majority of a supervisory management or governing body;
- controls the majority of voting rights;
- otherwise has a dominant influence on the Project Partner; or
- has the right to dispose of (part of) the assets of the Project Partner.

Given the definition of a Project Partner, Empower defines an UBO as any natural person(s) who ultimately owns or controls the Project Partner and includes at least:

(a) The natural person(s) who:

- holds direct or indirect ownership of more than 15% of the shares (irrespective of the profit and voting rights attached thereto); or
- holds direct or indirect ownership of more than 15% of the voting rights (irrespective of shareholding or partnership interest) or
- holds direct or indirect ownership of more than 15% of, irrespective of shareholding, the ownership interest ('ownership interest' means the right to distribution from the assets of the company, such as a right to profit, reserves or the surplus after liquidation); or
- being the ultimate owner or having the ultimate control with other means than shares, voting rights or ownership interest. (Control through other means may be determined, inter alia, in accordance with the rules on consolidation for annual reporting purposes and further may by example be a natural person who, as shareholder, has the (veto) right to appoint / dismiss the majority of the board members); or

(b) if, after having exhausted all possible means and provided there are no grounds for suspicion, no person under point (a) is identified, or if there is any doubt that the person(s) identified are the beneficial owner(s), the natural person(s) who hold the position of senior managing official(s)⁴ at the Project Partner (a **Pseudo UBO**⁵).

All UBOs and Pseudo UBOs, together with the other relevant information of the Project Partner, will be screened in accordance with the Empower KYC Process.

DEFINITION OF AUTHORISED REPRESENTATIVES

Authorised Representative are the natural persons representing the Project Partner in a proper and fitting manner in accordance with their internal regulations. Authorized Representatives are the individuals, who hold specific executive powers and have the permission to act on the entity's behalf towards Empower. These will be the persons signing the contract with Empower. In most instances this will be the Chief Executive/Managing Director of the counterparty.

⁴ Senior managing officials mean the natural persons who determine the day-to-day policy of the Project Partner

⁵ Pseudo UBOs are a fallback option: in the case of companies, the need to rely on Pseudo UBOs does not happen very often; however, it does occur more often in the case of foundations and associations

The Authorised Representatives acting towards Empower are subject to:

1. Identification and risk-based verification (screening in World-Check⁶ and adverse news and sanction lists); and
2. A check, that they are authorised to act on behalf of the Project Partner, through confirmation of resolution to enter agreement or other satisfactory documentary evidence.

⁶ World-Check is a database of Politically Exposed Persons (PEPs) and heightened risk individuals and organisations used around the world to help to identify and manage financial, regulatory and reputational risk.

| ONLY FOR LISTED PROJECT PARTNERS/PARENT COMPANIES: PLEASE STATE NAME OF LISTING AUTHORITY | | |

3. KYC searches performed

Please consult the Empower KYC and Integrity Policy

a. Simplified and Standard Due Diligence

| | | |
|--|------------------------------|----------------------------------|
| 1. Has a search been performed on the project partner, Beneficial Owners, Directors, members of Executive Management and Authorised Representatives through the Sanctions Lists? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| RESULTS/ "HITS" (if any): | | |
| 2. Has a search been performed on World Check on the project partner, Beneficial Owners, Directors, members of Executive Management and Authorised Representatives to screen for PEPs? | Yes <input type="checkbox"/> | No <input type="checkbox"/> * |
| RESULTS/ "HITS" (if any): | | |
| 3. Has a Reputation Check been carried out? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| The Reputation Check requires a thorough online check, via google and noting what newspapers articles may have published information about the client company and its operators. | | |

¹ The Simplified Due Diligence requires screening against World-Check and internet searches and receipt of a commercial register and register of Directors extract or similar document.

| | | |
|---|--|--|
| | | |
| Describe the extent of the searches performed through the Reputation Check: | | |
| | | |

b. Standard Due Diligence

Please describe the additional searches done or measures taken in relation to the following, *where applicable*:

| | |
|--|---|
| PEPs | Please describe the steps taken to examine the source of wealth of the PEP and the source of funds used. Please explain whether any authorisations are required from any hierarchy to enter into the business relationship and whether they are obtained? |
| Comments: | |
| Complex, unusual large structures and transactions | Please provide details of structure, including an explanation of the reasons for the complexity of the structure or operation. |
| Comments: | |
| Beneficial Owner incorporated in a country listed in the Annex | Please describe the appropriate measures taken to establish that these structures do not have as purpose or as effect to abusively extract taxable income from the beneficiary in the relevant developing country through fictitious transfer pricing mechanisms and in particular the cash flows between the local entity and the entities established in the concerned jurisdictions, and the transactions/contractual relationship behind such cash flows in accordance with Empower guidelines for the geographical scope of its investments. |
| Comments: | |
| ID Document Check/Face-to-face meeting | Where enhanced ID checks are need, describe the additional measures taken to ensure adequate identification of Project partner and Beneficial Owners, including sight of ID documents and face-t-face meetings |
| Comments: | |
| Matters identified at Preliminary Clearance | Have all matters identified at Preliminary Clearance that required further investigation been clarified and justified? |
| Comments: | |

Please explain whether any adverse information was found, and if so the reasons why Empower should not be prevented from entering into a business relationship with the Project Partner and the measures taken to mitigate the risks identified.

Comments, if any:

4. Enhanced Due Diligence

Where the KYC/Integrity Check uncovered a “hit” requiring enhanced due diligence: Please provide details including additional searches undertaken on the Project Partner and Beneficial Owners?

| |
|--|
| |
|--|

Please describe briefly the outcome of such additional searches

| |
|--|
| |
|--|

5. KYC Documentation

Please check all documents received in the list provided in Schedule 1.

Comments, if any:
